OVERVIEW OF THE PROJECT

Project Name: Grequo – a web page

Team Members: Shreedhanya
Ishwarya

This project is based on Web Development And its Applications. The main objective of this project is to learn the implementation of HTML, CSS and JavaScript. The basic webpage of this project is created using HTML and styling of the webpage is done using CSS. Connecting the pages via the javascript and storing data in databases.

About the situation

Grequo is a question-and-answer website where people go to find information about EVs, every piece of content on the site is generated by users, meaning it is created, edited, and organized by the same people that use the website.
